**DECLARATION IN SUPPORT OF PETITION TO MAKE  
SPECIAL BECAUSE OF ACTUAL INFRINGEMENT**

Technology Center 2100

Commissioner of Patents and Trademarks  
Washington, D.C. 20231

Dear Sir:

1. I, Thomas Isaac, am a named inventor of the above-referenced patent application.  
I am additionally the CEO of the assignee of the above-referenced application.

2. The above-referenced application is directed at least to a method for extracting  
organizational information from at least two service providers to form at least two organizational  
information protocols, wherein one organizational information protocol corresponds to each of  
the at least two service providers; providing a migration selection interface to a user; accessing a  
first at least one of the at least two service providers upon selection of the migration selection  
interface by the user; receiving, according to the organizational information protocol  
correspondent to the first at least one of the at least two service providers, of a first plurality of

information related to the user, upon said accessing a first at least one of the at least two service providers; accessing a second at least one of the at least two service providers upon selection of the migration selection interface by the user; and writing the first plurality of information to the second at least one of the at least two service providers according to the organizational information protocol correspondent to the second at least one of the at least two service providers, as claimed in claim 1 of the above-referenced application.

3. On or about September 11, 2003, I became aware that Earthlink, Inc, of 1375 Peachtree Street, Level A, Atlanta GA 30309, was marketing for sale and using a method for extracting organizational information from at least two service providers to form at least two organizational information protocols, wherein one organizational information protocol corresponds to each of the at least two service providers; providing a migration selection interface to a user; accessing a first at least one of the at least two service providers upon selection of the migration selection interface by the user; receiving, according to the organizational information protocol correspondent to the first at least one of the at least two service providers, of a first plurality of information related to the user, upon said accessing a first at least one of the at least two service providers; accessing a second at least one of the at least two service providers upon selection of the migration selection interface by the user; and writing the first plurality of information to the second at least one of the at least two service providers according to the organizational information protocol correspondent to the second at least one of the at least two service providers.

4. In my opinion, the rigid comparison of the claimed invention in Paragraph 2 and the method of Paragraph 3 above shows that at least claim 1 of the above-referenced application, as filed, is unquestionably infringed by Earthlink, Inc.

5. I have a good knowledge of the prior art relevant to the above-referenced patent application.

6. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully Submitted,

Dated: 9/26/03

Thomas Isaac
